

### ABOUT THE COLLEGE

Mother Theresa College of Engineering & Technology (MTEC) was established in the year 1999. It has a well-planned campus with pollution free environment. It is located at Peddapallam of Peddapalli district (Telangana). MTEC has emerged as a pioneer venture in the field of Technological Education, one of the most well organized institutions in Telangana District(s). Aesthetically built buildings, Well furnished, lecture halls, library, workshop, Computer labs, Internet facility, conference hall, Seminar hall, laboratories and spacious playground, Indoor and outdoor sports facilities, intramural-extra Curricular facilities, associated hostels and canteen in the campus, offer an ideal environment for pursuit of a professional career. MTEC has proven to be a turning point in the lives of many students, the place where many successes of stories begin.

### ABOUT THE DEPARTMENT

The department of EEE established in 2008 with the Approval of AICTE, is set in a open, student friendly Atmosphere. We have a fine blend of dynamic and Experienced faculty who provide quality education In technical UG programs with JNNTU-H curriculum, The department places equal emphasis on theoretical And practical domains of celectrical ad electronics engineering. The laboratories ae highly modernized to reflect the rapidly changing trends in technology. We have been organizing many symposiums, workshops skill development programs to encourage the students to refine their personality and extracurricular skills.

### ORGANIZING COMMITTEE:

PRINCIPAL

MOTHER THERESSA  
College of Engineering & Technology  
PEDDAPALLI-505 174.

### ABOUT THE FDP:

This FDP is designed to address research advancements in power conversion topologies and applications in the industry and to encourage various zonal professionals/students/ academicians towards research and for their academic quality improvement too. This course will offer a unique opportunity to all the participants in the relevant topics in Real Time Power electronic system and its applications through theoretical sessions and simulation plus laboratory-based experiments and demonstrations applications of power electronics can be found in several areas like industry, transportation, medical, telecommunication, residential, energy systems, etc..

### THE OBJECTIVE OF FDP:

The FDP intended to address the uncertainties and challenges in EV and associated technologies through knowledge and information exchange. This in due course will lead to acquiring deep knowledge in the development and implementation of low-cost and eco-friendly electric mobility and charging systems. The academia is yet to change its curricula to cope up with these rapid changes in the technology

### TOPICS COVERED

- Master techniques of design-oriented analysis for switched-mode power converters.
- Modern electric drives and control techniques for EVs.

### Resource Person:

**Dr. C. BHARATHI**  
Associate Professor, EEE  
GONNA Institute of Information  
Technology and sciences.

### ABOUT THE FDP

The aim of this program is to provide a platform for faculties/researchers of technical institutions to understand the recent research developments and to explore future trends in various areas of Electrical, Electronics, Computer Science Engineering and its applications.

### THE OBJECTIVE OF FDP

Provide a platform for teachers to discuss the present trends in laboratory classes in EEE. Discussion on better teaching methods in laboratory classes with respect to Outcome-Based Education (OBE) , to discuss and arrive at the methods regarding motivation of students to utilize the laboratory effectively.

### TOPICS COVERED

- Design and development of switched reluctance motor Energy management in Home Artificial Intelligence
- Integration of Large renewable into grid
- Integration of Renewable energy Sources and clean coal technology for efficient power system
- Multilevel inverter for efficient integration of solar power generation to the grid.

DATE: 13-12-2021 TO 18-12-2021

PRINCIPAL

MOTHER THERESSA  
College of Engineering & Technology  
PEDDAPALLI-505 174

### ABOUT THE FDP

A Moodle Learning Management System (LMS) is a software application or Web-based technology used to plan, implement, and assess a specific learning process. Typically, a learning management system provides an instructor with a way to create and deliver content, monitor student participation, and assess student performance. LMS is an online system or software which is used to plan, execute, and assess a specific learning process. In simple words, LMS is software used in e-Learning programs and which helps in administration, documentation, tracking, and recording. Learning Management Systems are used to maintain online collaboration over the internet. Colleges and companies use them to deliver online training as well as for maintaining employee record.

### THE OBJECTIVE OF FDP

The main objective of Learning Management Systems is to enhance the learning process. A Learning Management System not only delivers content, but also handles registering courses, course administration, skill gap analysis, tracking, and reporting.

### FDP OUTCOMES

Through this course participants will be able to develop a capacity to design and conduct MOOC courses through MOODLE platform.

#### ABOUT THE FDP:

A Moodle Learning Management System (LMS) is a software application or Web- based technology used to plan, implement, and assess a specific learning process. Typically, a learning management system provides an instructor with a way to create and deliver content, monitor student participation, and assess student performance. LMS is an online system or software which is used to plan, execute, and assess a specific learning process. In simple words, LMS is software used in e-Learning programs and which helps in administration, documentation, tracking, and recording. Learning Management Systems are used to maintain online collaboration over the internet. Colleges and companies use them to deliver online training as well as for maintaining employee record.

  
PRINCIPAL  
MOTHER THERESSA  
College of Engineering & Technology  
PEDDAPALLI-505 174.

**THE OBJECTIVE OF FDP:**

The main objective of Learning Management Systems is to enhance the learning process. A Learning Management System not only delivers content, but also handles registering courses, course administration, skill gap analysis, tracking, and reporting.

**FDP OUTCOMES:**

Through this course participants will be able to develop a capacity to design and conduct MOOC courses through MOODLE platform.

### ABOUT THE COLLEGE

Mother Theresa College of Engineering & Technology (MTEC) was established in the year 1999. It has a well-planned campus with pollution free environment. It is located at Peddabonkur of Peddapalli district (Telangana). MTEC has emerged as a pioneer venture in the field of Technological Education, one of the most well organized institutions in Telangana District(s). Aesthetically built buildings, Well furnished, lecture halls, library, workshop, Computer labs, Internet facility, conference hall, Seminar hall, laboratories and spacious playground, Indoor and outdoor sports facilities, intramural-extra Curricular facilities, associated hostels and canteen in the campus, offer an ideal environment for pursuit of a professional career. MTEC has proven to be a turning point in the lives of many students, the place where many successes of stories begin.

### ABOUT THE DEPARTMENT

The Mechanical Engineering department was Established in the year 2003. This department Strives to impart in-depth knowledge and training in the field of Mechanical Engineering that encompasses the fields of energy, thermal, design, manufacturing, industrial management, environmental engineering and to expose students to the latest research and development techniques so as to cater to the growing needs of the Industries and to mold the students as good citizens of our Country.

### ABOUT THE FDP:

This faculty development training programme will provide opportunity for teachers for training and upgrading their knowledge in the area of Design of Machine Elements. This programme enriches their knowledge and will also provide a basic platform to carry out research

### THE OBJECTIVE OF FDP:

The following salient topics will be discussed in the Design of Machine Elements Faculty Development Training Programme.

### TOPICS COVERED

- Design of Shafts & Couplings
- Temporary & Permanent Joints
- Energy Storage Elements & Engine Components
- Design of Bearings
- Steady Stresses And Variable Stresses In Machine Members

### Resource Person:

**G MADHU**

Assistant professor, ME

### PROGRAMME REPORT

Date: 18-11-2021

**Name of the program:** A Non-Teaching Faculty Development Program on Developing Administrative Skills and Leadership

**Date:** 17-11-2021

**Details of the program:**

**Details of resource person**

Name	KANNAM VENKATESWARLU
Designation	ASSISTANT PROFESSOR
Organization	MOTHER THERESSA COLLEGE OF ENGINEERING & TECHNOLOGY
Email id	Mtec.86@gmail.com
Contact number	9441461563

### **FDP OBJECTIVES:**

The importance of administrative skills is never justified enough, but these are the skills that help the organization and the business smoothly, effectively, and efficiently. Administrative experience is what helps achieve objectives and the goals of the organization. Someone with administrative experience or skills helps in smooth functioning. Not like you do not require technical knowledge for the task, but administrative skills are an added benefit.

PEDDAPALLI-505 174

**OUTCOMES:**

The importance of administrative skills is never justified enough, but these are the skills that help the organization and the business smoothly, effectively, and efficiently. It is also important to organize your digital workspace. Keeping all your important files labeled saves you a lot of time and allows you to be quick when someone asks you about a piece of particular information.
