ABOUT THE DEPARTMENT

The department of EEE established in 2008 with the Approval of AICTE, is set in a open, student friendly Atmosphere. We have a fine blend of dynamic and Experienced faculty who provide quality education In technical UG programs with JNTU-H curriculum. The department places equal emphasis on theoretical And practical domains of electrical ad electronics engineering. The laboratories ac highly modernized to reflect the rapidly changing trends in technology. We have been organizing many symposiums, workkshops skill development programs to encourage the students to refine their personality and extracurricular skills.

ABOUT THE FDP:

Electric vehicles are future of transportation. Electric mobility has become an essential part of the energy transition and will imply significant changes for vehicle manufacturers, governments, companies and individuals. Electric vehicles have completely different systems & architecture compared to petrol or diesel vehicles.

THE OBJECTIVE OF FDP:

This FDP help in understanding the electric vehicle technologies and gain appreciable knowledge over the systems.

TOPICS COVERED

1. Overview of EV power train & non power train sub system.
2. Energy analysis.
3. Traction battery technology.
4. Battery management systems.
5. Traction motors & motor controls.
6. EV charges & charging infrastructure.
7. Battery & motor thermal challenges.
8. EV auxiliary loads.
9. Advanced composite for automotive.

ABOUT THE FDP:

Electric vehicles are future of transportation. Electric mobility become an essential part of the energy transition and will imply significant charges for vehicle manufactures, governments, companies and individuals. Electric vehicles have completely different systems & architecture compared to petrol or diesel vehicles.

THE OBJECTIVE OF FDP:

This FDP help in understanding the electric vehicle technologies and gain appreciable knowledge over the systems.

TOPICS COVERED:

- Overview of EV power train & non power train sub system.
- Energy analysis.
- Traction battery technology.

ABOUT THE COLLEGE

Mother Theresa College of Engineering & Technology (MITEC) was established in the year 1999. It has a well-planned campus with pollution free environment. It is located at Peddabonkur of Peddapalli district (Telangana). MITECT has emerged as a pioneer venture in the field of Technological Education, one of the most well organized institutions in Telangana District(s). Aesthetically built buildings, Well furnished, lecture halls, library, workshop, Computer labs, Internet facility, conference hall, Seminar hall, laboratories and spacious playground, Indoor and outdoor sports facilities, intramural-extra Curricular facilities, associated hostels and canteen in the campus, offer an ideal environment for pursuit of a professional career. MITEC has proven to be a turning point in the lives of many students, the place where many successes of stories begin.

ABOUT THE DEPARTMENT

The department of Electronics & communication Engineering started right from the inception of the College in the year 1999. The primary objective of the Department has been to impart quality education, Training and research at the undergraduate in various areas of Electronics and Communication Engineering with broad emphasis on design aspects of electronic systems. The department presently offers UG Program B.Tech with an intake of 60.

ABOUT THE FDP:

The ability to process large number of features makes deep learning very power full when dealing with unstructured data. Deep learning architectures such as deep neural networks ,deep belief networks ,recurrent neural networks and convolution neural networks have been applied to fields like computer vision mission learning, Machine vision recognition natural language processing audio recognition social network filtering machine translation bioinformatics drug design medical image analysis material inspection.

THE OBJECTIVE OF FDP:

The objectives of FDP is to introduce fundamentals of deep learning with its application the program would help the participant to understand the key concept behind the deep learning. Identify the deep learning algorithms which are more appropriate for various types of learning comprehensive knowledge of various neural network architectures such as convolution neural network, recurrent neural networks. This FDP also focuses on exploring various research opportunities and challenges in the field of deep learning and its application.

TOPICS COVERED

10. Deep learning
11. Recurrent neural networks
12. Improving deep neural networks
13. convolution neural network

FDP OBJECTIVES:

To improve soft skills, communicate effectively & grow as a professional. Develop your overall personality and gain confidence in your daily encounters and present yourself assertively.

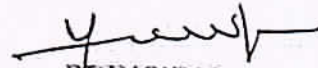

OUTCOMES:

Develop skills to embrace change, handle setbacks, and thrive in dynamic work environments. Build self-confidence, overcome self-doubt, and be able to assert one in professional settings. Improve both verbal and non-verbal communication abilities, active listening, and expressing ideas effectively.
