“AWARENESS RALLY CAMPAIGN ON GO GREEN

MOTHER THERESSA COLLEGE OF ENGINEERING & TECHNOLOGY (MTEC) has organized awareness rally campaign on GO GREEN at Peddakalvala Village this program benefits "Embrace the Green Revolution: Join Our Go Green Awareness Campaign

In a world facing escalating environmental challenges, our Go Green Awareness Campaign seeks to ignite a collective consciousness towards sustainable living. We invite you to be a steward of our planet by adopting eco-friendly practices and fostering a greener lifestyle.

Through this campaign, we aim to educate communities on the critical importance of reducing carbon footprints, conserving energy, and embracing renewable resources. Small actions, such as recycling, reducing single-use plastics, and planting trees, can collectively make a monumental impact on our environment.

Let's empower individuals, businesses, and communities to make informed choices that prioritize environmental sustainability. Together, we can create a ripple effect that leads to cleaner air, healthier ecosystems, and a more sustainable future for generations.

TREE PLANTATION PROGRAM

The MTECT Students are organizing tree plantation program at Rangampalli on 13 AUG 2022 with social responsibility. the main Moto of this program is sought to be achived by a multi – pronged approach of regenreting degraded forest , ensuring more effective protection of forest against encroachment and conservation measure following watershed approach

Tree plantation by faculty

Tree plantation is a vital initiative aimed at enhancing environmental sustainability and combating climate change. This program involves the strategic and widespread planting of trees in various regions, with the goal of fostering ecological balance and mitigating the adverse effects of deforestation.

The importance of tree plantation cannot be overstated. Trees play a crucial role in carbon sequestration, absorbing carbon dioxide and releasing oxygen during photosynthesis, thereby contributing to cleaner air. Moreover, they act as natural filters, purifying water and supporting biodiversity. Tree roots help prevent soil erosion, and the shade they provide helps regulate temperature, creating a more conducive environment for both humans and wildlife.

AWARENESS PROGRAMM ON POLLUTION AND IT'S EFFECTS

MOTHER THERESSA COLLEGE OF ENGINEERING & TECHNOLOGY (MTEC) has organized awareness on program on pollution and its effects Peddapalli Town on 21 JAN 202. This program benefits the students to create awareness among all sections of society among the importance of bio de gradable bags

An urgent call to action is imperative as we confront the escalating crisis of pollution and its perilous consequences. Our environment, the very essence of life, is under siege from pollutants emitted by human activities. An awareness campaign is crucial to illuminate the pervasive threat and inspire collective responsibility.

Pollution wrecks havoc on air, water, and soil, leading to severe health implications and ecological imbalance. Toxic emissions from industries and vehicles contaminate the air we breathe, contributing to respiratory diseases and climate change. Similarly, water bodies bear the brunt of industrial discharges and plastic waste, jeopardizing aquatic life and endangering our water supply.

The ripple effect extends to soil degradation, impacting agriculture and biodiversity. It's imperative to educate communities about sustainable practices, waste reduction, and the adoption of eco-friendly technologies. Awareness is the catalyst for change, empowering individuals to make informed choices that mitigate their environmental footprint.

AWARENESS CAMPAIGN ON SAVE THE DROP

MOTHER THERESSA COLLEGE OF ENGINEERING & TECHNOLOGY has organized awareness campaign on save drop on 18 SEP 2021 at peddabonkur village. The objective of this rally is to save the water and to learn the water conservation. By this event people will get to know the importance of every drop to generate the power. Following slogan has come out

"Save the Drop" Awareness Campaign is a crucial initiative aimed at raising awareness about water conservation and encouraging sustainable water usage practices. In a world where water scarcity is a growing concern, this campaign seeks to highlight the importance of every individual's role in preserving this precious resource.

The campaign employs a multi-faceted approach, utilizing social media, community events, and educational programs to reach a diverse audience. Engaging visuals, compelling narratives, and interactive content are designed to captivate the audience and communicate the urgency of the water crisis.

Collaborations with local authorities, environmental organizations, and schools amplify the campaign's reach and impact. Practical tips, such as fixing leaks, using water-efficient appliances, and practicing mindful irrigation, are shared widely to empower individuals to take immediate action.

SWACHH BHARATH

MOTHER THERESSA COLLEGE OF ENGINEERING AND TECHNOLOGY has organized swachh bharath program at peddapalli town on 14 DEC 2019. All the students have visited peddapalli town and cleaned surrounding the swachh bharath program

The Swachh Bharat Abhiyan, launched in 2014 by the Indian government, is a nationwide cleanliness campaign aimed at making India open defecation-free and ensuring proper waste management. To amplify the impact of this initiative, a comprehensive awareness campaign was initiated.

The awareness campaign focused on educating citizens about the importance of cleanliness, sanitation, and hygiene. Through a multi-pronged approach, including mass media, social media, and community engagement, the campaign reached every corner of the country. Celebrities, influencers, and political figures actively participated to lend their support and influence.

Public service announcements, workshops, and educational programs were organized to inform people about the health hazards associated with poor sanitation practices and the benefits of maintaining a clean environment. The campaign also emphasized the role of communities in sustaining the Swachh Bharat mission by promoting collective responsibility.

Additionally, the campaign leveraged digital platforms to encourage citizen participation and foster a sense of ownership. Success stories and testimonials were shared to inspire others, showcasing the positive impact of individual and community efforts.

The Swachh Bharat awareness campaign played a pivotal role in creating a nationwide movement, fostering a mindset shift towards cleanliness and hygiene. Through widespread dissemination of information and active participation, it contributed significantly to the success of the Swachh Bharat Abhiyan.

ECO – FRIENDLY VINAYAKA

MOTHER THERESSA COLLEGE OF ENGINEERING & TECHNOLOGY has organized awareness rally on "Eco- friendly vinayaka" in our college campus.

Title: "Green Ganesha: A Joyous Celebration for Mother Earth"

In a bid to foster environmental consciousness, our community is launching an awareness campaign promoting eco-friendly Ganesh Chaturthi celebrations. Recognizing the significance of Lord Ganesha in our culture, we aim to merge tradition with sustainability through our "Green Ganesh" initiative.

To spread awareness, we will conduct workshops, seminars, and social media campaigns, educating the community about the environmental impact of traditional materials like Plaster of Paris and chemical-based colors. We will also collaborate with local artisans to provide sustainable alternatives and support their livelihoods.

Let's come together to celebrate Ganesha Chaturthi in harmony with nature, pledging to protect our environment for future generations. "Green Ganesha" is not just a celebration; it's a commitment to Mother Earth.

PLANT'S DISTRIBUTION

MOTHER THERESSA COLLEGE OF ENGINEERING AND TECHNOLOGY (MTCET) Organized awareness program on uses of tree plantation and the environmental variations for coming generation and present living humans So the students are planed every rainy season planned to distribute plants at surroundings places

A Plant Distribution Program aims to strategically manage the dispersal of various plant species to enhance biodiversity, ecological stability, and environmental sustainability. This program involves systematic planning, coordination, and implementation of activities to distribute plants across different regions. The selection of plant species takes into account ecological suitability, climate conditions, and the specific needs of each area.

Plant distribution involves careful transportation, cultivation, and monitoring of the selected species. Education and community engagement play crucial roles in raising awareness about the importance of plant diversity, environmental conservation, and sustainable land management practices
