Effectiveness of guidance and mentoring

Counseling and mentoring system developed by the Institute has been proved to be effective considering different parameters. The involvement of students in the academics has increased, like class work attendance, self-confidence, adjusting to the new environment, Time management, participation in cultural activities etc. Because the number of students allocated to each of the mentor is limited to one class, personal interaction on regular basis has been possible.

The meeting of the students counseling committee was held on 29-01-2021 at Mother Theresa College of engineering and technology in the principal chamber

THE FOLLOWING MAIN POINTS WERE DISCUSSED DURING THE MEETING

The meeting began with a review of the previous minutes, which were approved unanimously. The committee reported on ongoing counseling sessions and initiatives, emphasizing the importance of maintaining student confidentiality. Discussions ensued on organizing mental health awareness workshops and promoting a stigma-free environment. Members highlighted the need for increased collaboration with faculty to identify and support at-risk students.

The committee shared plans for upcoming events, including stress management workshops and guest speaker sessions. A proposed schedule for regular counseling hours and outreach activities was also discussed. A subcommittee was formed to evaluate and enhance existing mental health policies.
